

While there are a number of [California nursing homes](#) to choose from – none can compare to the level of quality care offered from Sally's Residential Care Home. Along with basic services, residents of our premier facility receive 24-hour care for their individual physical and emotional needs. Our warm, friendly and always professional staff is happy to offer everything from light support to daily comprehensive care that includes dressing, bathing, personal hygiene and incontinent care.

Health services are not uncommon at [assisted living facilities](#) , but only at Sally's Residential Care Home do residents benefit from the experience of state-board certified registered nurses and owners Sally and Kayhan Mojabi. Together, the Mojabis bring over 30 years of nursing experience from acute, rehab, geropsych and hospital management positions – including years of geriatrics experience.

With such a stellar health care background, it should come as no surprise that at Sally's Residential Care Home, medication management is first rate. Our staff dispenses daily medications per physician's order – and always supervised by our registered nurses. To ensure the security of our residents, all medications in each facility are kept locked when not in use.

Though health care is always a chief priority, we also go above and beyond to create a welcoming and vibrant community. By offering regular activities that allow our residents to stay engaged with each other, our staff and their own lives, [senior care](#) at Sally's Residential Care Home is a true joy.

To learn about Sally's Residential Care Home and how we seek to provide the very best in senior care, please call (805) 701-1246 or visit our [contact page](#) .
