

The longer any of us live, the better the odds we will need at least some form of [elderly care](#), quite possibly on a 24-hour basis. Let's hope that we're as lucky as the residents of Sally's Residential Care Home. Located in beautiful and temperate Camarillo, California, this outstanding [elder care home](#) is blessed with a charming, home-like atmosphere and caring staff that provides 24-hour care with skill and compassion.

At Sally's, proprietors Sally and Kayhan Mohabi believe that [care for the elderly](#) needs to hit two crucial marks. First, of course, it must provide outstanding basic services. Meals, bathing and general hygiene, and all the other services that cover basic activities of daily living and physical wellbeing, must naturally be provided in a skillful and caring matter. Equally important in elderly care, however, are the little things that make daily life worth living. The Mohabis' highly conscientious and caring staff also know how to provide plenty of fun and engaging activities for residents. We also understand the importance of small extras, such as unlimited snacks and drinks for residents.

Movie nights, bingo games, regularly scheduled walks, and visits with furry friends provided by pet therapists are just the beginning of our active approach to [elder care](#). The staff of Sally's Residential Care Home takes the emotional wellbeing of residents just as seriously as their physical health. We provide a pleasant environment and attentive care that ensures that our residents feel as happy and secure as possible.
